

# HUMAN FACTORS IN PATIENT SAFETY

A bundle of knowledge, skills and understanding allows every professional to perform at their best. HUMAN FACTORS make a difference in the outcome of care.

This workshop for multidisciplinary teams will provide an introduction to patient safety and the human factors (non-technical skills) that underlie many mistakes and are preventable.

## HIGHLIGHTS:

- ✓ Understand the scale of the problem
- ✓ Understand the causes of error in healthcare
- ✓ Understand human factors
- ✓ Tools to improve patient safety
- ✓ Addressing real issues you face
- ✓ Developing techniques for pro-active error avoidance
- ✓ Helping foster sustainable cultural change
- ✓ Multidisciplinary approach to modern healthcare and putting the patient first
